

Quality Professional – Quality and Compliance Department

The Quality and Compliance department for a growing topical pharmaceutical lab in Petaluma, CA seeks a detail-oriented quality professional. The main responsibility of this position is to provide support for the quality function and improvement initiatives to meet regulatory and business requirements for research, development, and manufacturing activities. This organized individual is expected to have knowledge of regulatory requirements for early clinical phase development, have a keen eye for detail, and work independently and collaboratively across functional groups.

Minimum requirements include:

- An Associate's degree in a scientific field
- Working knowledge of cGMP and current FDA compliance requirements
- Experience in pharmaceutical development

The applicant is expected to have excellent interpersonal, verbal, written communication and numeracy skills, be comfortable in a fast-paced small company environment and be able to adjust workload based upon changing priorities.

This is a full-time regular position offering a competitive salary and benefits package in a friendly work environment. Salary and grade level will be commensurate with experience and education level.

To apply, please submit your cover letter and resume via email to mmorelli@symbioresearch.com.

Dow Development Laboratories is an equal opportunity employer. Qualified applicants will receive consideration for employment without regard to race, color, religion, sex, sexual orientation, gender identity, national origin, disability or protected veteran status. Reasonable accommodations may be made to enable qualified individuals with disabilities to perform the essential functions of this position.
